Subject: RE: Interpreter Services for June and July

I think this is a question for either Sharon or Gary. The contract was negotiated prior to my role as manager. I have never seen the contract.

We have to provide for interpreters. How are we doing this now?

We have not had any interpreters here since July 16. Clinica de la Mama never provided us with any schedules. We would need to have them forward the interpreters time records to us for verification of time worked.
